

COVID-19 GUIDELINES

When training, teams must stay on the court they are allocated to – this is imperative for not only respect's sake but now also so CDNA can keep an accurate record of who is training where in case the need for contact tracing arises

It is vital to:

- Maintain social distancing between people when not on court. If this cannot occur face masks must be worn
- Keep an accurate attendance on Team App of every person there, including coaches.
- Wipe and sanitise all equipment before and after use. You have been provided with antibacterial wipes in your training bag and team managers bag.
- Minimise the use of shared equipment
- Leave the court AS SOON as your time allocation has finished, so as to respect the incoming team
- Each team must provide their own equipment, including bibs and a first aid kit
- CDNA, in line with Netball Victoria guidelines, are strongly recommending limiting training to only participants, coaches and essential personnel. If spectators are necessary, please limit it to ONE per player
- Glen Eira Council will be checking our venue intermittently, ensuring these protocols are being upheld. It is up to you as clubs to follow the guidelines and expectations that they will be met
